

Chris Carmon

President

Chris Carmon has over 15 years of experience in professional search, providing talent acquisition services from businesses ranging from Fortune 100 Companies to early stage businesses. He has successfully completed national searches in engineering, operations, technical and business development roles. Chris brings over a decade of hands-on experience working in various manufacturing environments giving him a clear understanding of systems, best practices and methodologies.

Prior to his search career, Chris brings ten years of engineering consulting and sales experience with clients in various manufacturing sectors including: chemical process, plastics, steel, metal forming, coatings, machining, stamping, forging, metal finishing, paint, assembly, water purification, and waste treatment. He has extensive, hands-on experience within manufacturing environments, applying control and system solutions with specific product expertise with Foxboro (Invensys), Allen-Bradley, Pepperl+Fuchs, GE Fanuc, Fisher Control Valves, Rosemount, Yokogawa America, Gould Pumps, US Filter and Trionetics.

Chris founded CGI (Carmon Group, Inc.), his second successful search firm, in 2002. CGI has been a recipient of the *Inc. 5000*, *Weatherhead 100* and *NEO Success Award* in recognition of their success. In 2003, at the age of 34, Chris was awarded the *Crain's Business's 40 Under 40* for outstanding achievement in business and community.
